\$199 one-time setup · \$180/month · 500 minutes included

Your phone, answered — day and night.

We set up and run an AI receptionist for your business so every call gets answered, every question gets a correct response, and every booking lands on your calendar.

1. Your AI Receptionist, Live 24/7

We build, train, and run an AI receptionist that answers your business line around the clock.

Nights, weekends, lunch rush — every call is answered on the first ring, in a natural voice, with your business's information.

2. Answers Your Customers' Questions

We load your hours, services, prices, directions, and policies so the receptionist answers FAQs instantly.

“Are you open Sunday?” “Do you take walk-ins?” — answered correctly, every time, without interrupting your day.

3. Books Appointments Into Your Calendar

We connect your calendar so callers can book, reschedule, or cancel on the spot.

Appointments land directly in the calendar you already use — no double bookings, no phone tag.

4. 500 Minutes Every Month

Your plan includes 500 minutes of answered calls each month.

That's roughly 165 typical calls. Extra minutes are \$0.35 each — and if you go over often, moving up a plan usually costs less. We'll tell you when.

What this means for you

You stop losing customers to voicemail. The phone gets answered every time, bookings happen without you touching anything, and you get a record of every conversation.

INCLUDED — STARTER

24/7 AI receptionist	✓
FAQ answering	✓
Appointment booking + calendar	✓
Minutes included	500/month
Extra minutes	\$0.35/min

Important: This plan covers your AI receptionist only. Websites, Google Business management, social posts, reviews, and advertising are separate services — see the Digital Presence bundles and Marketing & Growth plans.
