\$1,199 one-time setup · then \$165/month (reg. \$180) — your AI receptionist at promo bundle pricing

A professional website and an answered phone — without the big upfront cost.

We design and build your website from scratch — unique to you, never a template — and pair it with our Starter AI receptionist at a promotional rate.

1. A Website Built From Scratch

We design and build a clean, polished, mobile-responsive website unique to your business.

Enhanced image quality, your story, your services — designed, written, and built for you.

2. Everything a Customer Needs to Act

We include a contact form, Google Maps, click-to-call buttons, and your business information.

A visitor can find you, call you, or message you in one tap.

3. Basic SEO

We write titles and descriptions that tell Google what you offer.

So searches for what you do can start finding your site.

4. Your AI Receptionist, Included

Your monthly includes our Starter AI receptionist — 24/7 answering, bookings, FAQ handling — with 500 minutes (\$0.35/min after).

Same service as our AI Solutions lane — answered calls, bookings, summaries — at a promotional monthly rate because you bundled it with your website. The AI voice assistant setup fee is waived when bundled.

5. Free Web Support While Subscribed

We host, maintain, fix, and update your website free while your AI subscription is active.

Something breaks, something changes, you need an edit — covered. (\$160/month on its own if you ever cancel the AI plan.)

What this means for you

You get a real web presence and an answered phone in one move, for less than most agencies charge for the website alone.
