

Growth

\$299 one-time setup · \$349/month

Get chosen over competitors.

Everything in Launch, plus we start creating content, responding to your reviews, and tuning your website — so customers comparing options choose you.

1. Everything in Launch

All Launch deliverables continue: profile management, posts, offers, review requests, monitoring, reporting.

2. 10 Google Searches Monitored

We double the searches we track for your business.

More of the ways customers look for you, watched month over month.

3. 4 Google Posts Every Month

Twice the posting rhythm on your Google Business Profile.

Your profile stays visibly active — a signal both Google and customers notice.

4. A Social Post Every Week

We create and publish a weekly post on your main platforms, with custom promo graphics.

Designed to your direction, in your brand — you approve, we publish.

5. AI-Assisted Review Responses

We respond to your Google reviews for you, in your voice.

AI drafts each response, you approve it (or let it post automatically). Thank-yous for the good ones, fast professional answers for the rough ones. Powered by our AI voice service — requires an active AI receptionist subscription (any plan). If you have one, this runs automatically; if not, we'll help you add the Starter plan.

6. Website SEO

We tune your key pages, titles, and descriptions so Google understands your services.

The plain-terms version: we make sure Google knows exactly what you offer and where.

7. Keyword Research

We research which searches actually bring customers in your area.

Your posts, pages, and profile get aimed at the searches that matter.

What this means for you

Your Google presence stops being static. New content every week, every review answered, and a website Google understands — that's what being chosen looks like.

INCLUDED — GROWTH

Everything in Launch	✓
Google searches monitored	10
Google posts	4/month
Social posts w/ promo graphics	1/week
AI-assisted review responses	w/ AI voice plan
Website SEO	✓
Keyword research	✓

Important: Growth adds content and website SEO. Google Ads, photo/video content, competitor monitoring, and strategy calls are in higher plans. Ad spend is not included in any plan — you choose your monthly Google Ads budget and pay Google directly. Automated review requests are powered by our AI voice service and require an active AI receptionist subscription (any plan).
